## Li Chun Man (李浚民)

Attained 5\*\* in 2 subjects and 5\* in 1 subject in the 2023 HKDSE.

Admitted to the Bachelor of Arts programme, the University of Hong Kong (香港大學文學士)

Recipient of the Faculty of Arts Entrance Scholarship of the HKU, which grants full university tuition fees for first year of study to students who score 33.5 points or above in their best 5 subjects (including English Language) in the HKDSE.

As a student of Ming Kei College, I am extremely grateful. In Ming Kei, I not only gained a wealth of knowledge, but more importantly, I developed sincere and unforgettable relationships with my classmates and teachers. Thanks to my teachers, I have been given the opportunity to take up several significant posts at school, such as being the chief editor of the school magazine and serving as the house captain of Oak House. In retrospect, I realize that I would never have understood the value of team building and the delight of working hard with others had I not been given such precious opportunities. I have no doubt that this period of my school life will remain one of my fondest memories. Thank you, my dearest Ming Kei!

## Tsang Chun Kit (曾俊傑)

Attained 5\*\* in 1 subject and 5\* in 3 subjects in the 2022 HKDSE.

Admitted to the Bachelor of Economics / Bachelor of Economics and Finance programme, the University of Hong Kong (香港大學經濟學學士 / 經濟金融學學士)

Ming Kei College provides a holistic and tailor-made education to all of its students. During preparation for the DSE examination, teachers made every endeavour to help us prepare thoroughly and supported us with a wide range of teaching materials such as mock papers and tutorial lessons. Teachers were not only willing to answer our questions with their endless patience, but they were also happy to listen to our worries and encouraged us to do our best, which strengthened our mental fortitude. I still remember something one of my previous teachers told me: “Losers seek excuses while winners seek solutions. It doesn’t matter if you fail, but it is of paramount importance to learn from your failures and make corresponding improvements.” Mingkeiers always make an all-out effort and never give up!

## Yiu Siu Kuk Cirrus (余小曲)

Attained 5\* in 7 subjects in the 2020 HKDSE.

Admitted to the Bachelor of Biomedical Sciences programme, the University of Hong Kong (香港大學生物醫學學士)

Recipient of the Home Affairs Bureau Multi-faceted Excellence Scholarship (民政事務局多元卓越獎學金), which grants full university tuition fees to students who excel in sports, arts and / or community service.

Apart from being grateful to my supportive classmates, I have been really thankful to my teachers during this dreary and unsettling time whilst preparing for the DSE examinations. Despite the suspension of face-to-face lessons, they have tried their best to help us with our revision by providing us with mock papers via WhatsApp and Google Classroom on a weekly basis and giving us detailed feedback on our exercises. I still remember that on 23rd April 2020, the day right before the commencement of the DSE examination period, that my nervousness started to kick in the morning. However, my WhatsApp feed was flooded with encouraging words from teachers and classmates, which immediately calmed me down. Having the good fortune to be taught by these teachers and to have made a lot of friends, I have never regretted studying in Ming Kei.

## Programmes for all students

- Soybean STEAM Project (supported by Professor Lam Hon Ming of the School of Life Sciences, the Chinese University of Hong Kong and his team 香港中文大學生命科學學院林漢明教授團隊)

Soybean is one of the most important crops in human history. Through the lens of Science, Technology, Engineering, Mathematics, Geography, History and Economics, soybean offers a holistic view of our society's foundation and prospects. By exploring the many facets of this wonder crop, our junior form students embarked on a multi-disciplinary journey.

Through talks by university professors and professionals and workshops, our students acquired multi-disciplinary knowledge through three modules:

1. Soybean and nutrition (S.1)
2. Sustainable agriculture and environment (S.2)
3. The Era of Genes (S.3)

S.2 students planted and studied the growth of soybean with Rhizobium.

S.1 students made and tested tofu with different coagulants.

S.3 students studied the physiological changes in soybean under salt stress by performing DNA experiments

In July, our Principal, STREAM teacher and students joined a 5-day tour led by Professor Lam to Gansu, visiting the local soybean farm.

- AI for the Future Project 智為未來計劃 (supported by the Chinese University of Hong Kong)  
Our S.2 students learn basic AI theory in the Computer Literacy lessons.
- VR Project for Chinese Language Education 賽馬會「觸境生情」虛擬實境語文教學計劃 (supported by the Chinese University of Hong Kong)  
Virtual reality technology is applied in learning activities in S.3 Chinese Language lessons.

# » Person-Centred Education with Love and Care

Ming Kei College is a school based upon the core beliefs of care and love. We nurture our students in a caring environment so that they can extend their love and care to their neighbours.

## Welcome to Ming Kei!

The S.1 Orientation Camp helps S.1 students strengthen their bonding and better adapt to new secondary school life. The Peer Counselling Scheme's big brothers and sisters, who are the senior form students, help every S.1 student to lead a joyful school life and one full of memories.

## Leadership training

Senior form students are trained to be leaders to serve their fellow schoolmates. They try to challenge themselves to enhance their resilience by different activities.

# » Integrated Education

The Integrated Education Committee has collaborated with the school social workers to provide students with various activities including board games, handicraft making, darts and ginger bread making, etc. Students are welcome to participate and these activities have been very popular among students. By participating in different activities, students can relieve their academic pressure.

## » School and Church Co-operation

### May God's grace be with Ming Kei

The CCC Kei To Mongkok Church (KTMK Church) has been working closely with the school on evangelistic work. The KTMK Church helps the school to teach Religious Education, and to organize and promote various religious activities for students. Through church-school cooperation, we fulfill the mission of the Hong Kong Council of the Church of Christ in China: "Together we nurture the lives of our students. Hand in hand we witness the Love of Christ."

The Little Shepherds (小牧人) lead the entire school in singing hymns in the Chapel.

### Food Angel (惜食堂)

The KTMK Church has collaborated with Food Angel to provide less-privileged elderly people with complimentary hot meals at Ming Kei in the evening. Ming Kei students serve as volunteers not only to distribute meals but also show their love and care to the elderly.

## » The Parent-Teacher Association

Parents are close partners of our school in educating our students. The Parent-Teacher Association (PTA) promotes communication and cooperation between the school and parents.

Congratulations to our outstanding students whose total grade points were the top 4% among all candidates taking at least 5 subjects in the 2023 HKDSE.
