Report of One-off Grant for Promotion of Self-Directed Language Learning (English Language)
2025-2026

Items	Amount	Evaluation
1. AI-Powered Writing Assistant and Platforms: Subscription services for POE and an AI learning platform to provide students with writing feedback and practice	$65,869	A subscription license for the Generative AI Gateway was acquired, facilitating research and learning in unfamiliar subject areas. The AI-powered writing platform recorded a high submission rate, with students demonstrating measurable academic progress across terms and in the year-end assessment.
2. English Language Activities: Funding for events such as English Week and Engish Activity Days, to promote fun and practical language use	$19,309	Six games booths on the theme 'International Carnival' and an English café were held during the English Week. Students generally responded positively to the activities, gaining broader exposure to various aspects of global food culture.
3. Curating an English-Rich Physical Environment: Purchase of mobile digital boards, design of display boards and thematic decorations for the English Activity Room to create a visually stimpulating language learning environment	$225	Visual learning aids and informational posters focused on idioms were displayed to arouse interest and enhance vocabulary retention.
Sub Total	$85,403
